NARRATIVE SECTION

25X1
25X1
1. The War Plans picture in the Far East is showing signs of increased activity. Operation [] reflected many shortcomings in the overall war plans. [] has been designated [] War Plans Officer in addition to his other duties. His duties will involve external and internal liaison on war plans, the preparation of communications annexes, and the staff implementation of the plan.

25X1

2. Involved with our war planning is a desire to maintain our strategic reserve in the maximum state of readiness possible. Preliminary survey of sites has been accomplished, and consideration is being given to the training of crews to man our mobile equipment ("live" in the field training is contemplated). We intend "flagging" the personnel files of those individuals who are checked out and familiar with the equipment. A further step believed necessary is the assurance of adequate logistical support in technical supplies and housekeeping items.

3. The final decision to close [] was received and plans are being made for the removal of all radio and crypto material except for that needed for emergency purposes. [] a former KUCLUB employee and now Chief of the [] group, will handle any emergency that arises and will be responsible for the material remaining.

4. Latest estimate for the return of [] for ELINT equipping is 20 November. The basic groundwork is being laid to prepare for the proper phasing of the installation period, training period, and operational. While awaiting the arrival of the boat, we are preparing our Analysis Center for operation in the near future.

5. A paper on ELINT is being prepared for local consumption by the NA Staff and its components. We are hampered, however, by our not having received a reply to our request in []. It is felt that this paper will do much to clarify the KUBARK part in ELINT collection, and perhaps engender an interest in expanding the sources and methods of ELINT collection. A great deal of guidance could be obtained from the "PLAN/STUDY" requested and it would assure us that we are "in phase" with KUCLUB policy.
